

# PV WIRE KITS

## 2kV AL Solar Wire

## Drill Driven Stripping Kits

Designed to keep pace with the world's growth in renewable energy, Ripley's PV Wire Kits are the answer for delivering precise, repetitive strips without the fatigue and safety concerns of working a knife through polyethylene jackets.

**The Ripley PV Wire Kits are the best solution an installer can have for feeder cable stripping tasks. Featuring a WS 22 SNAP power-driven end stripper and a selection of Ripley's US08 bushings, these kits save time and increase safety when compared to other options.**

Designed with ergonomics, durability, and ease-of-use in mind, the WS 22 SNAP features a quick-release collar for fast bushing changeover and an adjustable strip stop and scale for rapid set-up to precise strip lengths up to 5" (127mm).

Contained within a durable double-lock case, the Ripley PV Wire Kits have everything needed to get the job done.

### Features

- WS 22 SNAP end stripper works with any brand of drill
- Bushings cover a range of 2kV AL PV wire, see table below for details in each kit
- US08 bushings available from #8 AWG through 1000 KCMIL to address the most common cables seen on feeder cables
- Case holds up to nine bushings in total
- Custom kitting available, contact your Hubbell representative for requests

Part #	Description	Kit Contents	Bushing Slots Left Open:
UA01-7010	The Original PV Kit 500 - 1000	500, 600, 750, 1000 KCMIL	Can accept 5 more bushings
UA01-7086	The Longhorn PV Kit 4/0 - 1000	4/0 AWG, 250, 300, 350, 400, 500, 600, 750, 1000 KCMIL	No slots free
UA01-7087	The Atlantic PV Kit #2 - 350	#2, #1, 1/0, 2/0, 3/0, 4/0 AWG, 250, 350 KCMIL	Can accept 1 more bushing
UA01-7088	The Complete PV Kit 1/0 - 1000	1/0, 2/0, 4/0 AWG, 250, 350, 500, 600, 750, 1000 KCMIL	No slots free

# Make Cable Preparation Easier

With Additional Ripley® Products

## US16 MAX

### Drill-Operated Jacket Removal

- Designed to remove outer jackets on medium voltage power cables up to 2.625" (66.675mm) OD
- Unlimited strip lengths on #2 AWG 15kv 175 mil jackets through 1000 MCM AWG 35kv 420 mil jackets

PART #	DETAIL
US16-7010	Tool
US16-7200-XXXX	Bushings - Contact Ripley for best fit

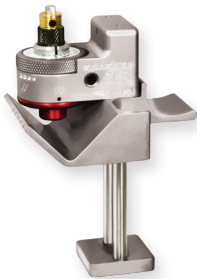

## MV Underground Kit

### Complete Adjustable Tool Set

- The best of Ripley's adjustable tools for 15-35 kV cable prep
- Includes US15, SCS, US01, US10, plus folding rule, jacket lift tool, and pliers
- Some customization available, refer to table for accessory swaps

PART #	KIT DETAIL
UA01-7066	Includes Kevlar shears for detail cuts
UA01-7069	Includes cutting pliers for higher leverage cutting

## SCS

### Semi-Con Scoring Tool

- Provides accurate semi-con scoring; capable of longitudinal & spiral cuts
- Precise & easily adjustable blade depths from 0" to 0.16" (0 to 4 mm) in increments of 0.002" (0.05 mm)

MODEL	PART #	SCALE	CABLE SIZE Ø
SCS	43630	Customary	0.31" to 1.77"
SCS	43625	Metric	8 to 45 mm

## UA04-7000

### Serrated Flat Nose Pliers

- Comfortable, ergonomic & slip-free dual-compound thermoplastic grips
- Drop-forged, hardened & tempered steel alloy for strength & longevity

MODEL	PART #	TYPE	LENGTH
Flat Nose Pliers	UA04-7000	Serrated	7" (177.8 mm)

## QC-2

### Quick Cable Clamp

- Easy-to-use, heavy duty aluminum clamp quickly attaches to stop jacket stripping operations
- Convenient ratchet allows for relocation of handle position

MODEL	PART #	CABLE SIZE Ø
QC-2	43970	0.5" to 2.5" 12.7 to 63.5 mm

## US10 Series

### 15-35kV URD Chamfering Tool

- Size adjustment clamping system quickly & easily adjusts, then locks onto the insulation
- Chamfers 15 to 35 kV cable to 30° bevel, 0.15" (3.91 mm) in length

MODEL	PART #	CABLE SIZE Ø
US10	US10-7000	0.55" to 2.36" 14 to 60 mm
