

# MV Underground Complete Tool Kits

Top of the line specialty tools to prep medium voltage cables with ease - from outer jacket stripping to semi-con scoring and through insulation chamfering, these kits ensure a precise cable prep every time.

**Developed in collaboration with certified trainers for medium voltage cable prep classes, the MV Underground kit from Ripley is designed to address any MV cable from 0.39" to 2.36" (10 mm - 60 mm) outer diameter.**

**Technicians in the field need to be able to rely on their tools being exactly where they need them, when they need them. With Ripley's kit at hand there is no confusion and no need to resort to a knife, helping to reduce jobsite injuries.**

Each kit features 9 tools plus replacement blades to prep 15 - 35kV cable: The US15 to ring and spiral the jacket, the new jacket lifting tool & flat nose pliers for jacket peeling, the SCS & US01 for semi-con & insulation stripping and the US10 for insulation chamfering. Two clamps, a ruler and a pair of cutting pliers for a clean, exact finish every time.
